

UPDATE ON COVID-19 TESTING AVAILABLE WITH A SURCHARGE AT OUR HOTELS STARTING JUNE 13TH, 2022

Dear guest,

For us, the most important thing is to offer you memorable experiences in a totally safe environment. At Posadas we continue to implement the most effective cleaning and disinfection measures through our **Travel With Confidence program**, in collaboration with 3M and endorsed by the ABC Medical Center.

Thinking about your safety, and given that some countries still require a negative COVID-19 test to enter their territory, we offer you at an **additional cost –which applies to new reservations starting June 13, 2022– and subject to availability**, an antigen test at the hotel facilities* or at nearby laboratories.

Upon your arrival, request at front desk to schedule an appointment. Remember to check in the official media of the country to which you are traveling, the previous time with which you must take the test.

Additionally, we recommend to purchase the Travel With Confidence Protection when you check-in with us, an insurance that covers accidents or illnesses that you may have during your stay, such as COVID-19. In that case, as an insurance benefit, we offer you a reduced rate of 50% per night, per person, so that you can safely spend your quarantine in the hotel facilities.

If you show any COVID-19 symptoms, please give notice to one of our collaborators to help and seek the best solution for you.

You are our priority and we are happy to welcome you.

Sincerely,

Enrique Calderón
Chief Operating Officer
POSADAS

Please consult terms and conditions at:
